

2. Copy Content of One File to Another

```
#include <stdio.h>
#include <stdlib.h>
int main()
{
    FILE *in, *out; char f1[100], f2[100], c;
    printf("Enter source filename: "); scanf("%s", f1);
    printf("Enter destination filename: "); scanf("%s",
f2);
    if (!(in = fopen(f1, "r"))) { printf("Cannot open
%s\n", f1); exit(0); }
    out = fopen(f2, "w");
    while ((c = fgetc(in)) != EOF) fputc(c, out);
    printf("Contents copied to %s\n", f2);
    fclose(in); fclose(out);
    return 0;
}
```

Sample Input: src.txt / dst.txt

Output:

```
Enter source filename: Enter destination filename:
Contents copied to dst.txt
```
